User Interface Principles

- 1) Strive for consistency
- 2) Enable frequent users to use shortcuts
- 3) Offer informative feedback
- 4) Design dialogue to yield closure
- 5) Offer simple error handling
- 6) Permit easy reversal of actions
- 7) Support internal locus of control
- 8) Reduce short term memory load

EVALUATION ON AUMS

Issue:

The user is sometimes displayed logged out message when the user actually intends to login.

Principle violated:

-Support internal locus of control

Suggestion:

Ensure proper session management, display appropriate message responses for user requests.

EVALUATION ON AUMS PART - 2

Issue:

The tabs for each course does not display the course name, making the user to either search through all tabs or remember the location of each tab. With many subjects to search from, this is a very tiresome task for the user.

Principles violated:

-Offer informative feedback -Reduce short term memory load

Suggestion:

The tabs for each subject can display the subject code alone instead, this will help user navigate to the desired subject with more ease and speed.

EVALUATION ON AUMS PART - 3

Issue:

Course name cannot be read with ease, user is forced to hover the cursor over the tab after which with some delay the subject is revealed.

Principle violated:

- Reduce short term memory load

Suggestion:

The tabs for each subject can display the subject code alone instead, this will help user navigate to the desired subject with more ease and speed.

EVALUATION ON AUMS PART - 4

Issue:

If the number rows in the marks table exceeds a certain threshold it is impossible to scroll beyond and view it.

Principle violated:

- Strive for consistency

Suggestion:

Alignment of the table has to be adjusted dynamically using CSS.

EVALUATION ON AUMS PART - 6

Issue:

To update timezone, user has to go through the entire list of timezones to select choice.

Principle violated:

- Permit easy reversal of actions

Suggestion:

A search option can be provided for the user to quickly pick out the correct timezone
